DENON

AVR-2312 + DBP-1611 + PSB Alpha Pack

Step into the world of home theatre and multi-zone. The AVR-2312 allows you to have your surround sound and a second pair of speakers in another room running simultaneously, eg. Your kids can watch a movie inside while you have your music playing outside while cooking up a storm on the Barbie. The 2312 also features iPod control and Airplay to stream music from your iTunes library.

RRP \$5944 NOW \$3999

Velodyne

CHT-8 and Impact 10

Feel like you need something else this Christmas? Velodyne are specialists when it comes to subwoofers, the Impact 10 will give you that extra bit of oomph in your home theatre system, while the CHT-8 will give you all of that with a little more finesse.

CHT-8 RRP \$1099 NOW \$649

Impact 10 RRP \$899 NOW \$529

ARCAM

Arcam rDac with rWand

How good would it be to be able to get great sound quality on your stereo via your iPod...wirelessly? Now you can. The Arcam rDac does the Digital to Analogue conversion of the music on your iPod (a major contributor to the loss in sound quality in iPod's is the low quality D-A converters onboard the iPod itself).
